

The background of the slide is a blurred photograph of an airport arrival board. The board displays flight information in German, including the word 'Ankunft' (Arrival) and flight numbers like '8493' and '2064'. The board is tilted, and the text is partially obscured by a green banner and a white text box.

The two pillars of our business model Acquisitions and asset management

ACQUISITIONS

- Lead investor for new acquisitions
- Placing airport competence at the disposal of consortium partners
- Additions to portfolio

ASSET MANAGEMENT

- Improve operational efficiency and sustainably strengthen the economic potential of existing airport holdings
- Value appreciation of participations
- Increased earnings and cash flows from assets

AviAlliance as airport investor

Investment criteria

- Airports which have not yet tapped their potential to the full and thus offer substantial scope for development
- Important criteria include:
 - Good growth potential
 - Attractive catchment area
 - Scope for infrastructure expansion and space optimization
 - Potential for non-aviation business
 - Improvements for operational and business performance possible

AviAlliance as asset manager

AVIALLIANCE

Key success factors

Enhancing value

AviAlliance optimizes its airports in terms of both operational and commercial performance by

- promoting passenger growth (wherever this can be influenced).
- efficient planning and application of capital input.
- reducing commissioning risks.
- boosting non-aviation revenues.
- structuring financing.
- increasing and stabilizing debt servicing capability.

What sets AviAlliance off from its competitors

Airport services
